Managing Assets Have Never Been Easy

Assets play a vital role in every business. Handling them is often overlooked by businesses. Our **Asset Management Module** helps in managing your assets flawlessly. Purchasing a new asset, maintaining it and discarding it can be monitored and managed with ease.

EJABIZ INSIGHT

PROVIDES FUNCTIONAL PERCEPTIONS TO HELP YOU BOOST YOUR BUSINESS

Ejabiz Insight gives you real in-depth insights into the data and helps to make decisions based on them. Develop your own actions based on the actionable insights from Insight!

WHY INSIGHT?

Insights into Business Intelligence

Insight gives you a real analysis of data. From data mining to data analysis, this application gives you a detailed analysis report which in turn gives you insights to take some major actions to promote your business.

Powerful Marketing Tool

Ejabiz Insight is the best tool for marketers that will give them a deeper insight into the data helping them design better marketing campaigns to reach the target audience.

Fully Automatic Insights and Flawless Navigation

Ejabiz Insight provides fully automatic insights into the data with descriptive analysis, performance benchmarking and much more. The easy to use interface allows you to make decisions even on the go.

Define and Drill your Choropleth and Cartogram

The facts and figures provided by Ejabiz Insights give you true awareness and understanding about the data and also allows you to define your Choropleth and drill down your Cartogram. Fix or expand your boundaries and make your business flourish!

Provides Structured Data

Ejabiz Insight structures raw data making it easy for you to make actionable decisions which in turn help in business growth.

Dynamic BI Dashboard

Ejabiz Insight dashboard is powerful and easy to manage. Complex data is presented in an easy to understand simple manner, which in turn allows you to make strong decisions based on the data analysed.

EJABIZ PRECISE

THE SIMPLEST FINANCE AND ACCOUNTING SOFTWARE

Streamline your business by using single accounting software to manage all aspects of your transactions.

SPECIAL FEATURES OF EJABIZ PRECISE

From Material Request to Purchase to Sales

Visualize progress in sales and manage purchases through intuitive dashboards that can be customized based on your unique requirements.

Customized Billing Experience

Billing is made easier with templates, alerts, and synchronised data. In minutes, you can create stunning invoices and bills for your clients.

Transparent Transaction Records

Ejabiz Precise makes it easy to keep track of your revenue and spending.

Uncomplicated Chart of Accounts

With Precise you can record, retrieve, and analyse all of your transactions.

Automated Invoices

Ejabiz Precise ensures that your firm receives proper returns by using customised subscription models.

Simplified Banking

Total transparency over transactions with real-time balance tracking and one-click bank statement upload.

Sell Across Platforms

Expand sales opportunities with easy integrations to Shopify, WooCommerce, Amazon MWS, and other third-party sales apps.

Stock Replenishment

With Precise's automated material requests, you can keep your inventory at optimal levels.

Automate Batched Inventory

Precise allows businesses to manage batch production by organizing key inventory data such as manufacturing dates, expiry product barcodes, and other batch-specific information.

Simplified Stock Balance Reports

Simplify stock audits with automated stock balance reports that provide comprehensive data on the health of your warehouse.

What Makes Precise Unique?

1. It allows you to keep meticulous records of all transactions
2. Transparent and customised reports and records
3. Inventory management including stock reconciliation
4. Manage orders and bids from vendors with automatic currency conversions

EJABIZ NO-Q

NO MORE WAITING WITH EJABIZ QUEUE MANAGEMENT SOFTWARE

No-Q engages clients before they arrive, inform them when it's their turn, and secure repeat business and a solid customer base.

Unique Features

1. Complies with the Covid-19 Pandemic protocol

2. Organization-wide data and analytics

3. Sign and signalling system show tokens for a Multi-counter service

4. Prebook option that allows you to select several slots and receive confirmation based on availability

WHAT MAKES NO-Q SPECIAL?

Wait Wherever You Are

Receive timely reminders before appointments to reduce perceived wait times allowing one to focus on other important duties rather than waiting in anticipation.

Make Remote Queues the New Normal

Get real-time wait time predictions and easily schedule visits.

Make Waitlist Management a Breeze

Evaluate lines and control wait times based on the number of customers, available employees, and even the type of service.

Easy Communication with Customers

Maintain an open line of communication with guests to ensure the best possible customer service.

Automated Invoices

No time is wasted in the confirmation of bookings, follow-up messages, or feedback requests.

Create Personalized Customer Profiles

Create personalised profiles for easier customer communication, VIP lists and targeted marketing efforts.

Real-time Insights to Optimize Business

At all times, get real-time updates on your business.

Integrate with your Everyday Tools

Connect to all Google services, Slack,SalesForce, and other important tools.

EJABIZ ENCIRCLE

THE MOST USER-FRIENDLY HR AND PAYROLL SYSTEM
